Application No.: 10/508,921	:	
Int. Filing Date: 14 March 2003	:	PETITION UNDER
Priority Date: 25 March 2002	:	
Attorney's Docket No.: 046516-0101	:	
For: SOLDERED REFRIGERANT CONDENSER	:	37 CFR 1.47(a)

This is in response to the "RENEWED PETITION UNDER 37 C.R.F. § 1.47(a)" filed on 09 February 2006.

BACKGROUND

In a decision from this Office on 09 December 2005, the petition was dismissed. The decision stated that petitioner had not provided sufficient support to establish Alain MAURER's refusal to join in the patent application because no evidentiary documents were submitted to show that a *bona fide* attempt was made to deliver the complete application to him and that he refused to sign the required papers.

On 09 February 2006, petitioner filed the present renewed petition accompanied with an executed Declaration and a declaration by Gisela Reusrath.

DISCUSSION

Petitioner's petition under 37 CFR 1.47(b) is improper because this petition is for the circumstance when all of the inventors refuse to execute an application for patent, or cannot be found or reached after diligent effort. In this situation two of the four inventors signed the declaration. Accordingly, the petition has been treated under 37 CFR 1.47(a).

§ 1.47 Filing when an inventor refuses to sign or cannot be reached.

(a) If a joint inventor refuses to join in an application for patent or cannot be found or reached after diligent effort, the application may be made by the other inventor on behalf of himself or herself and the nonsigning inventor. The oath or declaration in such an application must be

accompanied by a petition including proof of the pertinent facts, the fee set forth in § 1.17(h), and the last known address of the nonsigning inventor. The nonsigning inventor may subsequently join in the application by filing an oath or declaration complying with § 1.63.

A petition under 37 CFR 1.47(a) must be accompanied by (1) the fee under 37 CFR 1.17(h), (2) factual proof that the missing joint inventor refuses to execute the application or cannot be reached after diligent effort, (3) a statement of the last known address of the missing inventor, and (4) an oath or declaration by each 37 CFR 1.47(a) applicant on his or her own behalf and on behalf of the non-signing joint inventor.

Furthermore, section 409.03(d) of the Manual of Patent Examining Procedure (M.P.E.P.) **Proof of Unavailability or Refusal**, the relevant sections states, in part:

REFUSAL TO JOIN:

A refusal by an inventor to sign an oath or declaration when the inventor has not been presented with the application papers does not itself suggest that the inventor is refusing to join the application unless it is clear that the inventor understands exactly what he or she is being asked to sign and refuses to accept the application papers. A copy of the application papers should be sent to the last known address of the nonsigning inventor, or, if the nonsigning inventor is represented by counsel, to the address of the nonsigning inventor's attorney. The fact that an application may contain proprietary information does not relieve the 37 CFR 1.47 applicant of the responsibility to present the application papers to the inventor if the inventor is willing to receive the papers in order to sign the oath or declaration. It is noted that the inventor may obtain a complete copy of the application, unless the inventor has assigned his or her interest in the application, and the assignee has requested that the inventor not be permitted access. See MPEP § 106. It is reasonable to require that the inventor be presented with the application papers before a petition under 37 CFR 1.47 is granted since such a procedure ensures that the inventor is apprised of the application to which the oath or declaration is directed. *In re Gray*, 115 USPQ 80 (Comm'r Pat. 1956).

Where a refusal of the inventor to sign the application papers is alleged, the circumstances of the presentation of the application papers and of the refusal must be specified in a statement of facts by the person who presented the inventor with the application papers and/or to whom the refusal was made. Statements by a party not present when an oral refusal is made will not be accepted.

Proof that a *bona fide* attempt was made to present a copy of the application papers (specification, including claims, drawings, and oath or declaration) to the nonsigning inventor for signature, but the inventor refused to accept delivery of the papers or expressly stated that the application papers should not be sent, may be sufficient. When there is an

express oral refusal, that fact along with the time and place of the refusal must be stated in the statement of facts. When there is an express written refusal, a copy of the document evidencing that refusal must be made part of the statement of facts. The document may be redacted to remove material not related to the inventor's reasons for refusal.

When it is concluded by the 37 CFR 1.47 applicant that a nonsigning inventor's conduct constitutes a refusal, all facts upon which that conclusion is based should be stated in the statement of facts in support of the petition or directly in the petition. If there is documentary evidence to support facts alleged in the petition or in any statement of facts, such evidence should be submitted. Whenever a nonsigning inventor gives a reason for refusing to sign the application oath or declaration, that reason should be stated in the petition.

Petitioner has satisfied items (1), (3) and (4) of 37 CFR 1.47(a). However, the renewed petition still does not satisfy item (2).

Although documentary evidence has been submitted to show that petitioner made an attempt to obtain Alan MAURER's signature, the evidence provided does not refer to a copy of the application papers of either the international application or the aforementioned application being sent to Mr. MAURER for his review. Instead, the letters refer to two documents (1) declaration and (2) assignment for his review and signature and only letter (June 20, 2005) refers to a related South African patent application. Because statements do not refer to a copy of the application papers (specification, including claims, drawings, and oath or declaration) as required under MPEP 409.03(d) being sent to him with the other two documents for his review and signature, petitioner did not make a bona fide attempt to obtain MAURER's signature.

Consequently, the current record does not sufficiently establish that Alain MAURER's refusal to join in the application because of a complete copy of the application papers do not appear to have been delivered to him as required.

Therefore, the petition has not met the requirements under 37 CFR 1.47(a).

CONCLUSION

The petition under 37 CFR 1.47(a) is **DISMISSED** without prejudice.

If reconsideration of the merits of the petition under 37 CFR 1.47(a) is desired, applicant must file a request for reconsideration within **TWO (2) MONTHS** from the mail date of this Decision. Any reconsideration request should include a cover letter entitled "Renewed Petition Under 37 CFR 1.47(a)." Extensions of time are available under 37 CFR 1.136(a). Failure to timely file the proper response will result in ABANDONMENT.

Any further correspondence with respect to this matter should be addressed to the Mail Stop PCT, Commissioner for Patents, Office of PCT Legal Administration, P.O. Box 1450, Alexandria, Virginia 22313-1450, with the contents of the letter marked to the attention of the Office of PCT Legal Administration.
